### April 2018

### What went behind.....

*The month of March saw a thoroughly refreshing session with our guest Tripura Kashyap, a pioneer in creative body movement therapy. It was an enjoyable experience to draw landscapes on thin air and to challenge our partners in a variety of activities. Trying out various memory techniques with gestures and a whole lot of creative movements only added to the fun.*

*The event saw good participation and camaraderie among the members. We realized that motion and emotion are interconnected as we felt relaxed and light at the end of the session. Ladies, your regular presence and lively participation at the meetings motivates us to bring in more creative programmes over the months!*

### What Lies Ahead.....

*As the mercury soars, and summer holidays begin, it's time to equip ourselves with indoor activities to keep the little ones occupied. In the month of April, let's experience the joy of make believe and story telling through puppets with a hands on session with our guest Pavai Bhanu from Chennai.*

*Puppet theatre in India has a long and old tradition. Be it finger puppets or string puppets or the colourful puppets of Rajasthan, they attract attention of the young and the old. As children, learning was fun with the sesame street characters. Let's indulge in this art form to create our own puppet show and relive those wonderful memories.*
