February, 2022

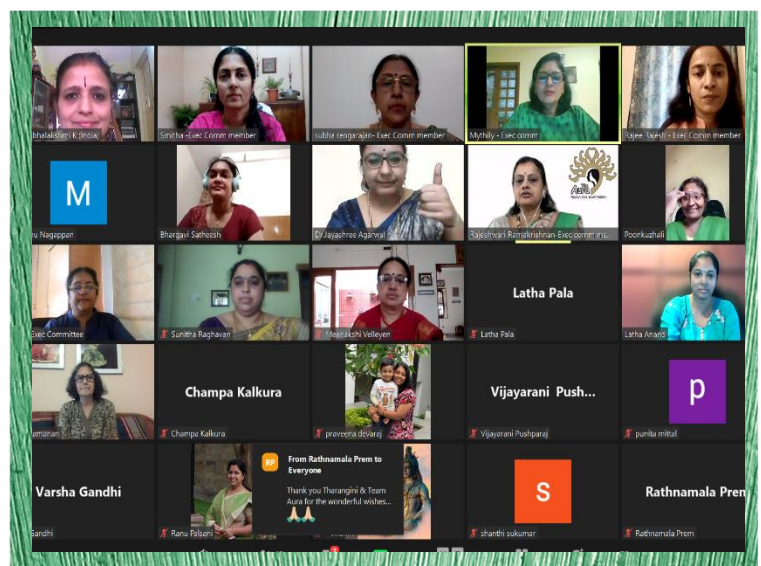

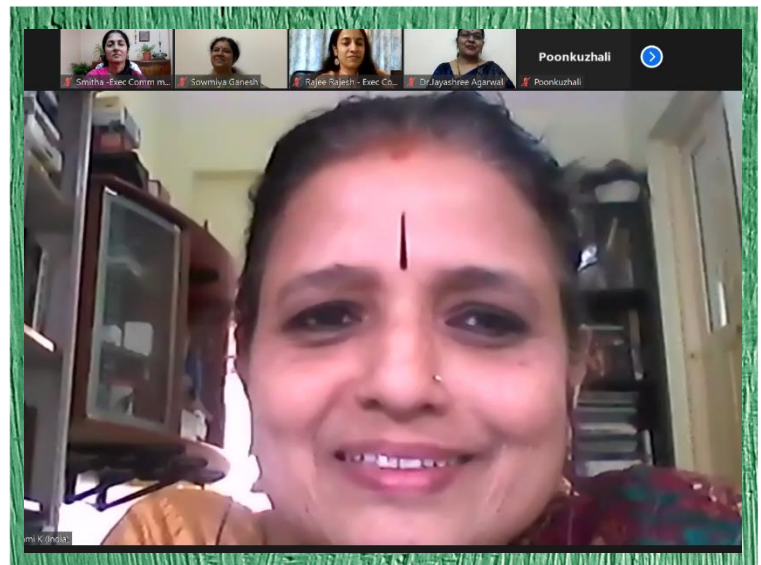

Greetings from The Aura,

Reach for the stars, spread your wings and fly. You never know what you can do till you try.

Women have ventured into every field and broken gender barriers. Stories of these outstanding women inspire many to dream big and reach out to the stars.

We were elated to meet Mrs Subhalakshmi Krishnamoorthy, the recipient of the 'Top 100 Women Icon Award' for her significant contribution to the nation's scientific community. An electronics engineer and space scientist by profession, she narrated with passion, India's achievements in space exploration. Subhalakshmi's enthusiasm to share her knowledge through the documentaries, made for The Aura, had us glued to our seats. We saw how the satellites have touched our daily lives, from farmers to ATMs, TV broadcasts to mobiles - the list is endless. Our hearts swell with pride with the launch of every satellite, which makes India more self-reliant.

Aura Athena gave an entertaining start for the year 2022 with a quiz recap of 2021. Excellent participation by members across groups made it an interesting and informative morning!

Guest Speak

It was a wonderful experience for me addressing the enthusiastic audience of "The Aura". I took lot of interest and effort to present the topic, but felt excited when the audience turned out to be highly responsive and interactive. It was obvious from the Q&A session that they not only enjoyed the presentation, they were quite inquisitive to know more about India's Space programme, the benefits of Satellites, the contribution of women scientists in ISRO and so on. An Association with a difference, where the members strive for continuous learning, self-development and holistic improvement. Thank you organizers, for the opportunity, though virtual.

- Mrs Subhalakshmi Krishnamurthy.
