April, 2026

Greetings from The Aura,
With the pace of progress in artificial intelligence being incredibly fast, The Aura met in March to Upskill members in digital skills for the future. AI and machine learning are already present in our life, significantly contributing to improving our quality of life.

With a passion to teach, Ms Kokila, the Ed-Tech Consultant at Super AI Polaris, helped us realize that AI is for everyone. The workshop designed for the Aura was one that felt welcoming, offered immediate hands-on practice, and provided tools that can be applied to real-world tasks to boost productivity both at home and office.

The primary takeaway for many was moving from fear or curiosity to actually using AI tools in our daily work. While artificial intelligence is poised to reshape the business world the speaker discussed ethical approaches to balance the societal impacts of AI and integrate this technology sustainably.

Prelude

Event: Decoding Crime –
The Science Behind The Scene

Guest: Dr Rukmani Krishnamurthy
Forensic Scientist,
Chairperson & CEO of Helik Advisory Ltd.,

Date: Monday, 6th April, 2026

Time: 10.45 am

Venue: Nanjai Hall,
Courtyard by Marriott, Trichy

They study medicine but aren't just doctors,
They delve into law, without wearing the title of lawyers.
They are Forensics, the silent heroes of society,
Shining light on truth and justice.

We are honoured to have with us Dr. Rukmani Krishnamurthy, a pioneering female forensic scientist, recognized for her leadership, case involvement, and efforts to advance forensic services in India. She has held key positions including Chairperson & CEO of Helik Advisory Ltd., former Director of Maharashtra Forensic Labs, and academic council member at the National Forensic Science University.

Dr Rukmani established six world-class forensic laboratories, introducing advanced techniques to combat high-tech crimes. She has been recognized with 12 national and international awards, including a lifetime achievement award from the Indian government.

Join us to know more about forensic science and the journey of India's first lady of forensics and her role in solving major crimes.

Let's salute the unsung heroes, without their sharp eyes, intricate equipment and spotless labs, justice would be a mere illusion.

HAPPY BIRTHDAY

Guest Speak

It was a wonderful session and the audience were very interactive and engaging. I had an opportunity to exchange my knowledge on the world of AI. Very happy to be part of this session. Thank you.

Kokila T
