June, 2026

Greetings from The Aura,

“Whenever two objects come into contact, they always leave a trace on the other. Hence every criminal can be connected to his crime” said Dr Rukmani Krishnamurthy as she spoke about the vital role of Forensic Science in crime detection.

Being India’s first woman forensic scientist, Dr Rukmani stood tall among all men in finding the culprits. She discussed how forensics had helped solve various high profile crime cases that she had handled in her career. ‘Decoding Crime’ turned out to be an engaging session, no less than a crime thriller, narrated with a dash of humour. It was inspiring to see her resilience, intelligence and unwavering determination. Kudos to the lady who proved that competence, not convention, defined the profession.

Aura Astraea put together a vibrant, fun-filled morning full of energy and excitement. With new members joining in, we look forward to an exciting year ahead!

Prelude

Event: Beyond The Frame –
A Woman Who Gives
Women Their Voice.

Guest: Ms Deepa Venkat
Voice actor & Cine Actress

Date: Saturday, 6th June 2026

Time: 10.45 am

Venue: Nanjai Hall,
Courtyard by Marriott.

Every voice has a story, and some voices bring countless stories to life.

We are delighted to present an insightful conversation with Deepa Venkat a versatile Indian actress, voice actor, and radio jockey whose voice has graced countless iconic films. With a career spanning over three decades, she has become a cornerstone of South Indian cinema, lending her vocal magic to leading ladies like Nayanthara, Aishwarya Rai Bachchan, and Katrina Kaif in multiple languages.

Deepa's talent shines beyond the recording studio, with memorable performances in television serials and films. A recipient of the prestigious Kalaimamani award, she is celebrated for seamlessly blending artistry and versatility, captivating audiences with her dynamic contributions to the entertainment world.

Let's come together and dive into an interesting conversation with the incredible artist.

HAPPY BIRTHDAY

Guest Speak

Yet another interesting session by The Aura. Watching crime thriller movies, I used to think forensics was just about murders, crimes. Today's session made me realize how vast and deep this field is. Amazed by the hard work that goes behind the scenes in solving bomb blasts, arsons, cyber crimes, etc. Even more appreciated, as Dr.Rukmani kept it understandable without using too many technical words. Thank you, team Aura for the creativity in selection of topics.

- Prathiba Srinivasan

Birthdays in May & June
