The Harikatha by the exponent Smt. Vishaka Hari was an extraordinary spiritual experience for all those who attended the programme. Musical compositions have the capacity to drive in complicated philosophical thoughts through traditional lyrical tunes, promote a sense of calm and clarity in our contemplation of life and elevate the soul to exalted heights of peace. This was well proved in the musical discourse on Shri Purandara Dasa rendered by the classical carnatic star of the evening.

The plethora of songs by Purandara Dasa was well strewn and knit around the story of this Sangeetha Pitamaha's life, related by Vishaka. She made the entire crowd consisting of all age groups completely comfortable with her artistic style of story telling.

The overwhelming turnout of the guests to the event was heartening. Undoubtedly, for most of our members and guests this was a special rendezvous with an unusual genre of music.

“FINANCE,-It is the art or science of managing revenues and resources for the best advantage of the manager. The pronunciation of this word with the i long and the accent on the first syllable is one of America's most precious discoveries and possessions.”

~ Ambrose Bierce, American Writer, Journalist and Editor.

Every investment decision has two key aspects: time and risk. While the sacrifice occurs in the present and is certain, The benefit occurs in the future and is uncertain. Your economic well being in the long run depends significantly on how wisely or foolishly you invest.
