September-2010

## *What went Behind...*

Food and fun for the mind was the agenda on the menucard of Festeva 2010. Microscopia, Dumb Charades, Quiz about our town and a lot more ticklers were organized by the Quizzosociates of Trichy.

This mixed group of professionals and non-professionals, entertained us in a very different manner. The usual, boisterous Festeva morning was missing and was replaced by quiet contemplation, reserved reflection, overt observation and the members were always deep in discussion with the group before they answered.

The very active and bubbly were introduced to a new kind of silent activity that they relished while the reticent ones of our group enjoyed this taciturn experience. It was an activity filled day that awoke the interest in world affairs, words and information that set the upper storey of our body aflame.

### *What lies ahead....*

Our hearts swell with pride, when we think that five years have gone by without much ado! We have had gala, playful mornings, interesting intellectual forums, exposure to elusive subjects that have helped us grow in many directions and the many exquisite meetings with celebrities, who, if not for The Aura, would not have come to Trichy.

We are proud of ourselves; and this trend that we have started, we believe, will grow with the help and co-operation extended by all of you out there! We are coming to the closure of the fifth year and we proudly enter into our sixth year of existence. To commemorate this occasion we will be celebrating our fifth anniversary in a very unique manner.

The future of our country, some say is bright and beautiful while others contradict vehemently, this will be spoken about at length by a Gandhian, a simple but supreme thinker, an orator par excellence and a writer who has won many a heart- Gnani. This thought provoking address, in contrast, will be followed by a comedy show that will be conducted by Erode Makesh and his troupe.

There will be food for serious deliberation and for the lighter senses as well. This would be a time for applause and appreciation.

### *Attention*

- The Anniversary is as usual with family, so do come and enjoy the evening.
- For children between the ages, 5 and 10 we will have activities that will interest them.

*5<sup>th</sup> Anniversary-The success of this nest is that we have learnt to dig deeper, know more and understand better...Let's share the excitement and celebrate this historic event....*
