## *What went Behind...*

The room was rife with loud laughter, giggles and smiles, and all our members appeared very comfortable chortling at the string of jokes that our speakers were pouring out.

At the last meeting they helped us understand that laughter is one of the most potent forces for keeping all our senses alive, helping us to navigate the rough parts of life.

So ladies do not stop yourself- always laugh out loud, chortle at funny movies and TV shows, giggle at your favorite comics and let yourself go!

Laughter is contagious and humor triggers creativity. Humor has a positive effect on our emotions and lifts our spirits.

It is not the things around us that matter, but our attitude towards things. So face your world with a smile and experience the difference!
