

# The Aura- Newsletter 72

August 2012

## *What went Behind...*

The JK Fastrak'12 Car Rally was a thundering success. Registrations came flooding into The Aura office and we had a record number of 70 cars in both the categories 'Fun Wagon' and 'Eves on Wheels'. There were prizes galore and the sponsors were appreciative of the rally and the way it was organised and conducted.

There was not a silent moment for the participants from the time they were flagged off at the National College grounds till the finish at the KRT Garage. The participants enjoyed calculating and negotiating the paths charted out in the tulip chart. It was a challenging experience of a lifetime. MMSC, as always, was impressed with the turnout and the quality of competition.

In short, the T.S.D. rally was well acclaimed by the competitors. Srilekha, the playback singer, regaled the audience with a few songs at the valedictory function at Hotel Sangam. The SP of our town and the Commissioner of Police expressed their appreciation at the efforts of the Aura and promised to offer their co-operation and encouragement in such activities.

## *Birthdays in September*

P. Alamelu	7th	Kantha Kishore	21st
Supriya Ravikumar	8th	Sheiba Mathuram	22nd
J.Suryavadhana	11th	V. Chandra	27th
Shanthi Sukumar	13th	Shilpa Vivek	29th
Sunitha Raghavan	18th	Srividhya.M	30th

*Date: 12th September, 2012*

*Time: 11:00 AM*

*Venue: Nanjai Hall, Hotel Sangam, Trichy*

*Topic: 'No Maths' to 'Know Maths'*

*Speaker: Mr R. Ramanujan,*

*Professor, Indian Institute of mathematical sciences*

### *What Lies Ahead*

"The essence of mathematics is not to make simple things complicated but to make complicated things simple." says the mathematician S.Gudder. Mathematics and the world of numbers attract only the left-brained. This month we will be having an expert mathematician in our midst. He will walk us through the world of numbers showing us how to improve our ability to identify and analyze patterns, challenge our logical and critical thinking skills and find ways to see relationships between numbers and use maths to solve problems. He has promised to change the attitude of 'no, no maths' to 'know, know maths'. I can assure you that after this session, you are going to be the most wanted by everyone in the family to solve their various problems.

### *Attention*

- Membership renewal forms have already been despatched. The renewal fees is Rs.2750/- for 2012-2013. Please renew at the earliest so that you do not miss out the details of the October event.
- Any references for new members may be brought to the notice of the committee immediately so that the application is processed before the October event.
- The annual event is on Saturday, October 6<sup>th</sup>. Please mark your Calendar

**"The mathematician's best work is art, a high perfect art, as daring as the most secret dreams of imagination, clear and lucid. Mathematical genius and artistic genius touch one another."**
