### **What went behind.....**

*"The most important thing about communication is hearing what isn't said" says DTM Sastharam Ravendran, better known as the voice and noise of Chennai. The well known public speaker had the rapt attention of the Aura members as he discussed different styles of communication. The interactive and fun filled session kept us engrossed with activities, games, videos and stories chosen carefully to make a point. Discussions on how to build trust and what does it depend on - called for interesting interaction with the speaker. The cream of the session was the psychometric test which revealed our communication style and the kind of person we are. By the end of the event the speaker was all praise to the super active and intellectual group of the lovely ladies of the Aura.*

### **What Lies Ahead.....**

*"I fear the day that technology will surpass our human interaction. The world will have a generation of idiots" said Albert Einstein. Today, if you are not in Facebook , Twitter, LinkedIn... u don't exist ! Though the opportunities are vast, for many connected users in India, access to internet is primarily for accessing social media networks.*

*Our speaker Mr Sujit Kumar, founder of Maatram foundation and HR business leader for Infosys will lead a discussion into whether Social media websites are creating a positive communication link among friends, family and professionals or is it a battleground where insults fly from the human quiver, damaging lives and destroying self esteem and self worth. The Swati murder case is one such incident still fresh in our memory.*
